

B2BDIRECT

Where resourceful businesses buy imaging supplies™

Compatible Tektronix Supplies

Are you ready to make substantially more money on imaging products? Welcome to the wonderful world of compatible Tektronix Laser and Inkstik supplies. These color supplies are new compatibles, not remanufactured. The color match has been developed to meet or exceed original specifications.

COLOR MATCHING

Our colors are matched to not only work together to provide rich, vibrant colors, they also interact with OEM cartridges and stiks. You will have no compatibility issues in using these products.

VALUE

Compatible products produce a “Win-Win” situation for both the dealer and the end user by providing higher dealer profits and lower user cost. Beat the low margins and high cost of the original supplies.

QUALITY... WE GUARANTEE IT

Each product is backed by our exclusive guarantee. Both the cartridge and the printer are warranted for the life of the cartridge. Compatible products do not void the manufacturer's printer warranty.

FROM A NAME YOU CAN TRUST

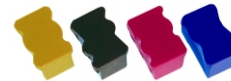

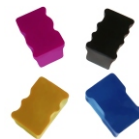

B2B Direct delivers the widest variety of printer consumables available in the industry from its fully certified ISO 9002 facilities. With over 50 years of experience, you can trust B2B to bring you the best products at the most competitive prices.

COMPATIBLE SUPPLIES GUARANTEE

B2B Direct guarantees that our Tektronix compatible InkStiks and Color Laser Cartridges are free of manufacturing or material defects and are suitable for use in the intended Tektronix Phaser printers.

Should a Tektronix compatible product be found to have caused damage to a printer due to defect, B2B Direct will pay reasonable and customary charges to repair the printer. Reimbursement will occur only after B2B receives back the product that damaged the machine along with a written statement from an Authorized Servicing Organization's service representative detailing the problem and the cause.
